SKIN CARE BY SCIENCE

## NANNIC BEAUTIFYING ENERGY RF

## NANNIC NBE RADIO FREQUENCY

ENHANCING, FIRMING AND REJUVENATING THE SKIN

VISIBLE AND LONG-LASTING EFFECTS FROM THE VERY FIRST TREATMENT

## PROF NBE RF

### SAFE TREATMENT WITH IMMEDIATE AND LONG-LASTING EFFECT

Is there a safe and painless treatment that will make skin firm, smooth and youthful whilst firming up the jaw line? It may sound unattainable, but with the development of the PROF NBE RF, NANNIC has made a revolutionary breakthrough in combatting the signs of ageing skin. PROF NBE RF combines electromagnetic energy with proven effective active ingredients containing cell identical elements. NBE is a very safe treatment. It is even very favourable for the body's own biological systems.

## A BREAKTHROUGH IN THE FIGHT AGAINST SKIN AGEING

The NBE concept is an ally in the fight against skin problems. All in all, skin firmness is improved on both face and body - visibly reducing the signs of ageing. NBE treatments are given in salons by specially trained beauticians.

What does this mean for your skin?

Enhancement of the natural processes of the cells • Stimulation of cell division • Increased moisture in the skin • Improved circulation of oxygen-rich blood • Increased absorption of active ingredients • Improved structure in connective tissue • Better tone in underlying muscles • Smaller pores • Stimulation of lipolysis • Detoxification, thanks to drainage of the lymph system • Reduction in the number of free radicals • Production of collagen and elastin is stimulated • A lasting younger appearance

NBE (NANNIC Beautifying Energy) treatments are suitable for all skin types.
